

Download A Life In Error From Little Slips To Big Disasters

The journey begins with a bizarre absent-minded action slip committed by Professor Reason in the early 1970s - putting cat food into the teapot - and continues up to the present day, conveying his unique perceptions into a variety of major accidents that have shaped his thinking about unsafe acts and latent conditions. In the December issue of NVVK Info the review of James Reason's latest (last?) book has been published: English translation below: No need to introduce professor James Reason to safety professionals. At least, I hope I don't need to, and I sure hope that all have at least something from him (preferably either his seminal "Human Error" or "Managing The Risks Of Organizational Accidents").
