The books in this series, like the other Springer-Verlag mathematics series, are yellow books of a standard size (with variable numbers of pages). Definition. A matrix is a rectangular array of numbers or other mathematical objects for which operations such as addition and multiplication are defined. Most commonly, a matrix over a field F is a rectangular array of scalars each of which is a member of F . Most of this article focuses on real and complex matrices, that is, matrices whose elements are real numbers or complex numbers ...
