Okay start this first step by drawing out the shapes and guidelines to form a frame for Crash. Start with a circle for the head and then add the facial guidelines. You will then draw out the body lines for his torso and then the shapes of his arms and hands. Once that is done you will add his legs lines. Step 2. Description: In this next step you will start drawing out the shape of his body and head as you see here. This includes the right side of his head, his right ear and then his eyebrow arches. You will then add the guidelines for his fingers and shape out his arms and legs. Draw out the right foot and move to the next step.
