

Download Kawasaki Mule Owners Manual 3010

Complete service repair workshop manual for the: Kawasaki KAF620 Mule 3000 3010 3020 KAF 620 This is the same manual UTV dealerships use to repair your utility vehicle. Manual covers all the topics like: Engine Service, General Information, Transmission, Chassis, [...]your engine needs 3 things to start and run:gas, ignition spark, and compression. at this point you have verified spark, and you know there is fuel in the float bowl of the carb. so the next step to check would be the compression. this engine has a simple adjustment system, which is called screw and locknut. you will not need to order or change any valve lash shims, but you will need the right ...I have a 3010 Trans. Had a similar issue a few years ago. A couple of suggestions: Sudden onset of this issue might be a fuel quality problem. Drain the fuel and use non ethanol with some SeaFoam to boot.not sure if that mule has the same engine as the hpx has .i know one of the mule models does .when i first bought my gator it suddenly shut off and wasn't pumping any fuel. me and my buddy thought it was the fuel pump or a fuse but it turned out to be a bad sensor mounted to the bottom of the carburetor bowl. it send a signal to the pump to pump fuel when it went out the pump wouldn't come on ...
