Kar?shi (???), which can be translated literally as "overwork death" in Japanese, is occupational sudden mortality. The major medical causes of kar?shi deaths are heart attack and stroke due to stress and a starvation diet. This phenomenon is also widespread in other parts of Asia. Edward Lee Thorndike (August 31, 1874 – August 9, 1949) was an American psychologist who spent nearly his entire career at Teachers College, Columbia University. His work on comparative psychology and the learning process led to the theory of connectionism and helped lay the scientific foundation for educational psychology. He also worked on solving industrial problems, such as employee exams ... Here's a picture of my daughter enjoying Fun Spanish.
