Drug Calculation Questions R Sinclair, Pharmacy 18.8.2005. Drug calculation questions are a major concern for most pre-registration pharmacists and are also a worry for those involved in pre-registration training. With a clear explanation of drug prototypes and how they work, Lehne's Pharmacology for Nursing Care, 10th Edition gives you the background you need to understand drugs currently on the market, and those not yet released. This perennial favorite of students and teachers simplifies complex concepts while distinguishing need-to-know content from the material that's merely nice to know. There are two types of significance used to interpret research studies – statistical significance and clinical significance. They are not the same thing. One answers the question, Are the statistical results due to random chance? and the other answers the question, So what? A selection of Ebooks available to SWASFT & SCAS staff & students.
