

# Download Parallel And Transversal Performance Task

Angle Tasks 1: Parallel Lines and Transversals Framework Cluster Reasoning About Equations and Angles Standard(s) 8.G.5 Use informal arguments to analyze angle relationships Recognize the relationships between interior and exterior angles of a triangle Recognize the relationships between the angles created when Unit Parallel Lines and Angles Performance Task Subject GEOMETRY Grade Level 9, 10, 11 Overarching Question(s): How do we prove that the lines are parallel and other angle relationships based on the given information? Common Core Learning Standards to be addressed Prove geometric theorems G-CO.9. Prove theorems about lines and angles. Parallel And Transversal Performance Task available for free PDF download. You may find Ebook Pdf Parallel And Transversal Performance Task document other than just manuals as we also make available many user guides, specifications documents, promotional details, setup documents and more. Performance Based Learning and Assessment Task . Parallel Lines Task. I. ASSESSMENT TASK OVERVIEW & PURPOSE: Students will analyze, modify and reanalyze a physical model of parallel lines in the coordinate plane to help them to move from the concrete to the abstract in their understanding of the characteristics of parallel lines.
